On behalf of the Florida Department of Transportation (FDOT), you are invited to an informational open house regarding an interim improvement study of the intersection of John Young Parkway (U.S. 17/92 and S.R. 600) and Pleasant Hill Road in Poinciana.

The proposed interim improvements include construction of a new roadway within the southeast quadrant of the existing John Young Parkway and Pleasant Hill Road intersection. This new roadway will help relieve congestion and connect the existing John Young Parkway/Oaks Boulevard signal to a new signal located at the existing Fern Drive and Pleasant Hill Road intersection.

The informational open house is being conducted to seek community input and provide interested persons an opportunity to express their views about the project.
